DEMAND FOR

Plaintiffs, [REDACTED], by and through her parents and natural guardians, APRIL BRYANT and WAYNE BRYANT, and APRIL BRYANT, Individually and WAYNE BRYANT, Individually, by their attorneys, GOLDSMITH CTORIDES & RODRIGUEZ, L.L.P. and THE LOCKS LAW FIRM, PLLC, as and for their Second Amended Complaint against the Defendants allege, upon information and belief, as follows:

**PRELIMINARY STATEMENT**

1. This case arises out of medical care and treatment received by the infant Plaintiff, [REDACTED], at THE CHIARI INSTITUTE, an unincorporated entity of North Shore University Hospital, NORTH SHORE - LONG ISLAND JEWISH HEALTH SYSTEM, INC. and the HARVEY CUSHING INSTITUTES OF NEUROSCIENCE, an unincorporated entity of North Shore University Hospital from Defendants THOMAS H.

**MILHORAT, M.D., PAOLO A. BOLOGNESE M.D., MISAO NISHIKAWA, M.D., L. THIERRY REMY, M.D. and CHANLAND ROONPRAPUNT, M.D.**, between March and October, 2008.

2. The Defendants falsely advised the Plaintiff, [REDACTED], by and through her parents and natural guardians, APRIL BRYANT and WAYNE BRYANT, that she was suffering from occult tethered cord syndrome and Ehler's Danlos syndrome, and that she required surgery on the tethered cord to treat the Chiari Malformation.

3. The Defendants thereafter recommended and performed surgery upon the infant Plaintiff, [REDACTED], without advising APRIL BRYANT and WAYNE BRYANT that said surgery was unnecessary and experimental and that [REDACTED] was being used as a human research subject. Specifically, on April 15, 2008, Defendants, THOMAS H. MILHORAT, M.D., PAOLO A. BOLOGNESE, M.D., L. THIERRY REMY, M.D. and CHANLAND ROONPRAPUNT, M.D., performed spinal cord untethering surgery upon the Plaintiff, [REDACTED], on the premises of Defendant NORTH SHORE - LONG ISLAND JEWISH HEALTH SYSTEM, INC., without advising her that the untethering surgery was unnecessary and experimental to the extent that it was not a scientifically accepted method for treating Chiari Malformation. The safety and efficacy of said untethering surgery as a treatment for Chiari Malformation has never been proven by any published peer reviewed medical or scientific study.

4. Tethered cord surgery (sectioning of the filum terminale) was not and is not an acceptable scientifically supportable treatment for Chiari I Malformation.

5. Tethered cord surgery (sectioning of the filum terminale) was and is considered an experimental treatment for Chiari I Malformation.

6. Defendants recommended and performed tethered cord surgery solely for their financial gain. Defendants utilized the Plaintiff, [REDACTED], as a human research subject without her parents' knowledge and consent, solely for financial gain. The tethered cord surgery in no way benefited the Plaintiff, [REDACTED]. To the contrary, the infant Plaintiff has been caused to suffer severe and irreversible damages that will impact the rest of her life.

**JURISDICTION AND VENUE**

7. This Court has jurisdiction over the subject matter of this action pursuant to 28 U.S.C. §1332 based upon the diversity of citizenship of the Plaintiffs and the Defendants and since this action seeks damages in excess of SEVENTY FIVE THOUSDAND (\$75,000.00) DOLLARS, exclusive of interest and costs.

8. Venue is proper in this district pursuant to 28 U.S.C. 1391(a).

#### FACTUAL SUMMARY

60. Plaintiff, [REDACTED], was born in [REDACTED].

61. In or about January, 2008, when the Plaintiff, [REDACTED], was [REDACTED] years old, she developed severe headaches, visual disturbances and vomiting and was diagnosed with Chiari I Malformation.

62. Chiari malformation is a condition in which brain tissue protrudes into the spinal canal. There are several different forms of Chiari Malformation. The most common type is the Chiari I malformation. In normal anatomy, the cerebellar tonsils are located just above the level of the foramen magnum. In an individual with Chiari I, the tonsils hang below the level of the foramen magnum into the spinal canal.

63. The Plaintiff's parents, APRIL BRYANT and WAYNE BRYANT, learned of Defendant, TCI and the Defendant physicians named herein from the websites of various support groups for individuals suffering from Chiari Malformation.

64. The Plaintiff's parents, APRIL BRYANT and WAYNE BRYANT, reviewed the website of the Defendant, The Chiari Institute, a Division of North Shore – Long Island Jewish Medical Health System, Inc., and took their child to said facility for an evaluation as a result of the contents of said website.

65. The website of TCI advertises to the public that the physicians at said facility have expertise in the treatment of Chiari Malformations, and other related conditions.

66. The website of TCI falsely advertises to the public that "the neurosurgeons of The Chiari Institute have made major contributions to the basic sciences of Chiari Malformation (CM) and syringomyelia".

67. The website of TCI falsely advertises to the public that it carries out "research projects" supported by a \$17.5 million dollar grant from the National Institutes of Health.

68. The NIH grant advertised on TCI's website does not exist.

69. The website of the Defendant, TCI, posts a video presentation by Defendant BOLOGNESE entitled "Tethered Cord Syndrome."

70. The video presentation by Defendant BOLOGNESE contains knowingly false and misleading information regarding occult tethered cord syndrome.

71. Defendant BOLOGNESE states on said video presentation that when the filum terminale becomes too thick and too tense it creates a downward pull on the spinal cord, causing a herniation of the cerebellar tonsils, without informing the public that there are no scientific studies or peer reviewed medical literature, supporting this conclusion.

72. Defendant BOLOGNESE states on said video that when the filum terminale becomes too thick and too tense it creates a downward displacement of the spinal column, thereby causing and contributing to Chiari Malformation, without informing the public that there are no scientific studies or medical literature supporting this conclusion.

73. Defendant BOLOGNESE claims in the video presentation that Defendant TCI has developed the "TCI Special," a system for diagnosing occult tethered cord syndrome by utilizing clinical data, radiologic studies, stimulation tests and morphometrics.

74. Defendant BOLOGNESE fails to inform the public that the concept of morphometrics as it relates to occult tethered cord syndrome is a diagnostic tool developed by Defendant NISHIKAWA, an employee of Defendant TCI, who is not licensed to practice medicine in the State of New York.

75. Defendant BOLOGNESE on said video presentation fails to inform the public that the concept of morphometrics has not been widely studied or written about in the scientific or peer reviewed medical literature as it relates to occult tethered cord syndrome.

76. Defendant BOLOGNESE on said video presentation fails to advise the public that no scientific or medical proof exists proving that morphometrics is useful and efficacious in the diagnosis of occult tethered cord.

77. Defendant BOLOGNESE fails to inform the public on said video presentation that he and Defendant MILHORAT rely on Defendant NISHIKAWA'S interpretations of radiological studies in making the diagnosis of occult tethered cord, even though he is not a physician licensed to practice medicine in the State of New York.

78. The Plaintiff, [REDACTED], was evaluated at Defendant TCI, by the Defendants who advised the her parents, APRIL BRYANT and WAYNE BRYANT, that she

was suffering from Occult Tethered Cord Syndrome, a condition where the spinal cord is improperly attached, or tethered to the spine, and that the tethered cord was contributing to and causing the Chiari Malformation.

79. Defendant, NISHIKAWA, performed morphometric interpretations on the Plaintiff, [REDACTED] radiological studies to make a diagnosis of tethered cord syndrome while he was physically present in the State of New York, even though he was not a physician licensed to practice medicine in the State of New York.

80. Other Defendant physicians relied, in part, upon Defendant, NISHIKAWA's interpretations of the Plaintiff, [REDACTED] radiological studies and his diagnosis of tethered cord syndrome to develop a plan of care and treatment for the Plaintiff, [REDACTED]  
[REDACTED]

81. The family was further advised that the Plaintiff, [REDACTED] suffered from Ehler's Danlos syndrome, a genetic disorder affecting collagen synthesis, and that the Tethered Cord Syndrome was the "sum effect" of the Chiari I Malformation and the Ehler's Danlos Syndrome.

82. The Defendants, through their deceptive advertising on their website and lecture presentation materials available on the internet, and through the deceptive direct statements made to the parents of Plaintiff, [REDACTED], misled the family into believing that by having tethered cord surgery, [REDACTED], Chiari I Malformation would improve.

83. The Defendants misled the Plaintiffs into believing that the occult tethered cord surgery would cause the cerebellar tonsils to retract at least 3.5 mm above the level of the foramen magnum.

84. That Defendant BOLOGNESE promised APRIL BRYANT and WAYNE BRYANT that [REDACTED] cerebellar tonsils would retract by at least 3.5 mm.

85. The Defendants falsely misrepresented to APRIL BRYANT and WAYNE BRYANT that by not having the tethered cord surgery, the tethered cord would start to pull more and more, causing a worsening of the tonsillar herniation.

86. The Defendants falsely misrepresented to APRIL BRYANT and WAYNE BRYANT that if [REDACTED] had tethered cord surgery she would not need Chiari decompression surgery in the future.

87. That Defendants falsely misrepresented to APRIL BRYANT and WAYNE BRYANT that tethered cord surgery was a very safe procedure.

88. The Defendants failed to advise APRIL BRYANT and WAYNE BRYANT that occult tethered cord is a highly controversial subject in the field of neurosurgery.

89. The Defendants knowingly misled the Plaintiffs into believing that the occult tethered cord surgery would lead to an improvement of the Plaintiff, [REDACTED] Chiari symptoms which included headaches, visual disturbances and vomiting.

90. The Defendants knowingly misled the Plaintiffs into believing that there is an association between occult tethered cord syndrome and Chiari I malformation and that the tethered cord surgery would correct the Chiari I malformation. Upon information and belief, Defendants knew that these representations were false.

91. That at a lecture given by Defendant BOLOGNESE at a meeting of the American Association of Syringomyelia held in July 2008 in Arlington, Virginia, a video copy of which is available on the internet, Defendant, BOLOGNESE, described the phenomenon of tethered cord syndrome and discussed the benefits of having surgery to correct same. Defendant

BOLOGNESE in said video falsely claims that following tethered cord surgery there is retraction of the cerebellar tonsils by at least 3.8 mm, and, that downward displacement of the brainstem reduced by an average of 3.5 mm, resulting in resolution of Chiari symptoms.

92. The Defendants misled the Plaintiffs into believing that tethered cord surgery is safe and rarely leads to complications.

93. The Defendants did not advise the Plaintiffs that surgery on occult tethered cords as it relates to improving Chiari Malformation and Chiari symptoms has not been widely studied in the scientific and medical community, and that no proof exists establishing that tethered cord surgery can improve Chiari Malformation.

94. The Defendants did not advise the Plaintiffs that there were no published peer reviewed medical studies in existence establishing that performing tethered cord surgery is a scientifically accepted and efficacious treatment for Chiari Malformation.

95. That Defendants failed to advise the Plaintiffs that articles written by physicians associated with Defendant, TCI, on the topic of occult tethered cord as a treatment for Chiari I Malformation had been submitted for publication, but had been rejected by peer reviewed medical journals.

96. The Plaintiff, [REDACTED], underwent surgery to allegedly fix her tethered cord on April 15, 2008 at NORTH SHORE – LIJ, which was performed by Defendants MILHORAT, BOLOGNESE, REMY and ROONPRAPUNT.

97. Defendant MILHORAT acted as the primary surgeon and was assisted during the procedure by Defendants, BOLOGNESE, REMY and ROONPRAPUNT.

98. Post-operatively, APRIL BRYANT and WAYNE BRYANT were falsely advised by Defendants, BOLOGNESE, MILHORAT, REMY and ROONPRAPUNT, that [REDACTED]

[REDACTED] tonsillar herniation had already improved by 3.5 mm as a result of the surgery and that she had the most successful tethered cord surgery as of yet.

99. Defendants MILHORAT and BOLOGNESE charged in excess of SIXTY THOUSAND (\$60,000.00) DOLLARS to perform the tethered cord surgery.

100. The Plaintiff's, [REDACTED], condition worsened following the performance of the tethered cord surgery.

101. The Plaintiff, [REDACTED], developed significant injuries following the performance of the tethered cord surgery, including but not limited to a condition known as syringomyelia and many other complications and injuries.

102. The Plaintiff, [REDACTED], had undergone several neurosurgeries following the occult tethered cord surgery performed by Defendants MILHORAT, BOLOGNESE, REMY and ROONPRAPUNT, and continues to suffer from permanent injuries resulting from tethered cord surgery.

103. The Defendants induced the Plaintiff, [REDACTED], by and through her parents and natural guardians to have experimental tethered cord surgery, solely for their financial gain, full well knowing that there is no scientific or medical proof that tethered cord surgery provides any real improvement of the patient's Chiari Malformation or the symptoms associated with Chiari Malformation of Chiari related symptoms.

104. The Defendant, BOLOGNESE, presented a lecture at the meeting of the Association of Syringomyelia held in July, 2008, in Arlington, Virginia, which is available on the internet wherein he stated that a prospective study in tethered cord surgery was being performed at Defendant, TCI.

105. The Defendants, performed surgery upon the Plaintiff, without advising the Plaintiff or her parents, that the surgery was experimental in nature, as it related to the treatment of her Chiari Malformation and Chiari related symptoms, or that her case would be studied and included in a nationwide study being performed on a condition known as Ehler's Danlos Syndrome, which the Defendants claimed was connected to Tethered Cord Syndrome.

106. Upon information and belief, pathologic studies were performed upon specimens removed from the Plaintiff's body without her parent's consent during the unnecessary tethered cord surgery, solely for purposes of gathering information for the various studies.

107. The Defendants neither advised the Plaintiffs about the experimental nature of the surgery, nor did the Defendants ask the Plaintiffs to sign a consent form of the type that would be required for participation in human experimentation.

108. The Plaintiff, [REDACTED] now suffers from significant injuries arising from the performance of the unnecessary and medically useless surgery performed on April 15, 2008 by Defendants MILHORAT, BOLOGNESE, REMY and ROONPRAPUNT at Defendant NORTH SHORE - LIJ; some of these injuries include but are not limited to: syrinx from C2 on the cervical spine to the conus, which was not present prior to the tethered cord surgery, worsening Chiari herniation, cavitation of the spinal cord, brainstem compression.

109. In addition to suffering physical and emotional injuries, the Plaintiff has been caused to suffer financially as a result of having the unnecessary surgery recommended by the Defendants, including but not limited to, having to expend monies not covered by insurance, such as the initial consultation fee charged by Defendants.

110. The Plaintiff was covered by medical insurance at the time of her treatment by the Defendants.

111. The Defendants charged the Plaintiff in excess of \$60,000.00 for the unnecessary surgery they performed, and Plaintiff's health insurance carrier paid a portion of those charges.

112. The Plaintiff's health insurance carrier under an equitable or contractual right of subrogation or under ERISA will seek reimbursement from the Plaintiff if she recovers monetary damages from this case.

113. In the event that the Plaintiff recovers a monetary award from this case, she will be required to reimburse her health insurance carrier for the payments it has made to the Defendants and to her subsequent treating physicians who have treated her damages sustained in connection with the Defendants' malpractice.

114. The fact that the Plaintiff will need to repay monies to her health insurance carrier is a direct and proximate result of the Defendants' fraudulently recommending and performing unnecessary surgery upon her, while knowing that said surgery was unnecessary and useless.

**AS AND FOR A FIRST CAUSE OF ACTION**

**(MEDICAL MALPRACTICE)**

115. That Plaintiff, [REDACTED], came under the care of the Defendants, **MILHORAT, BOLOGNESE, NISHIKAWA, REMY, ROONPRAPUNT, TCI, HARVEY CUSHING and NORTH SHORE - LIJ**, in or about March, 2008.

116. That the Defendants, MILHORAT, BOLOGNESE, REMY, ROONPRAPUNT, NORTH SHORE - LIJ, TCI and HARVEY CUSHING, performed surgery upon [REDACTED] [REDACTED] on April 15, 2008.

117. That the Defendants rendered pre-operative and post-operative care to the Plaintiff.

119. That the Plaintiff, [REDACTED], continued to receive care from each of these Defendants until approximately October, 2008.

120. At all times herein mentioned, the Defendants had a duty to use reasonable and proper care in their efforts to care for, treat and medicate said Plaintiff.

123. That as a result of the foregoing, the Plaintiff, [REDACTED], has sustained serious, severe and irreversible personal injuries, and pain and suffering.

124. That solely as a result of the aforesaid injuries due to the improper care and treatment on the part of the Defendants, the Plaintiff, [REDACTED], has been subjected to repeated medical therapy, examinations, tests, medications, hospitalizations, and other care, and the Plaintiff, [REDACTED], will continue to require such further treatment in the future.

134. The Plaintiff, [REDACTED] repeats and realleges each and every allegation contained in Paragraphs numbered "1" through "133", inclusive, of this Second Amended Verified Compliant, with the same force and effects as if set forth herein at length.

135. That on or about April 15, 2008, [REDACTED] had surgery at NORTH SHORE - LIJ, performed by Defendants, MILHORAT, BOLOGNESE, REMY and ROONPRAPUNT.

136. That [REDACTED], by and through her parents, APRIL BRYANT and WAYNE BRYANT, was fraudulently induced into having surgery by Defendants, MILHORAT, BOLOGNESE, NISHIKAWA, REMY, ROONPRAPUNT, TCI, HARVEY CUSHING and NORTH SHORE - LIJ.

137. That the Defendants falsely advised the Plaintiff that she had Ehler's Danlos Syndrome which they claim is connected to occult tethered cord syndrome, and that said Defendants knew these statements were false when made.

138. That the Defendants falsely advised the Plaintiff that she was suffering from tethered cord syndrome, and that said Defendants knew these statements were false when made.

139. That the Defendants falsely advised the Plaintiff that she needed tethered cord surgery, and that said Defendants knew these statements were false when made.

140. That the Defendants falsely advised the Plaintiff that by undergoing tethered cord surgery, there would be at least a 3.5 millimeter retraction of the cerebellar tonsils, and that said Defendants knew these statements were false when made.

141. That the Defendants falsely advised the Plaintiff that by undergoing tethered cord surgery, she would see an improvement in her Chiari I malformation, and that said Defendants knew these statements were false when made.

142. That the Defendants falsely advised the Plaintiff that by undergoing tethered cord surgery, she would see an improvement in her Chiari I symptoms, and that said Defendants knew these statements were false when made.

143. That these representations were falsely made, and in truth the Plaintiff neither suffered from tethered cord syndrome nor Ehler's Danlos syndrome and, in fact, there was no published medical or scientific proof that Chiari symptoms or Chiari I malformation can be improved through the performance of tethered cord surgery.

144. That in fact, the Defendants failed to inform the Plaintiff and her parents that tethered cord surgery can adversely affect the patient.

145. That the Defendants fraudulently advised the Plaintiffs on their website that Defendants, TCI and HARVEY CUSHING are supported by a \$17.5 million dollar grant from the NIH which in fact, does not exist.

146. That Defendant BOLOGNESE in the video presentation entitled "Tethered Cord Syndrome" posted on Defendant TCI's website, knowingly and with intent to deceive, advised the public that the Defendants had developed the "TCI Special," a diagnostic system enabling them to diagnose occult tethered cord syndrome through the evaluation of clinical, radiological and stimulation data, and morphometrics.

147. That Defendant BOLOGNESE in the video presentation entitled "Tethered Cord Syndrome" posted on Defendant TCI's website, knowingly and with intent to deceive failed to advise the public that the use of morphometrics in the diagnosis of occult tethered cord, is a

concept developed by Defendant NISHIKAWA, an employee by Defendant TCI who is an unlicensed physician in the State of New York.

148. That Defendant BOLOGNESE in the video presentation entitled "Tethered Cord Syndrome" posted on Defendant TCI's website, knowingly and with intent to deceive failed to advise the public that morphometrics has not been accepted as a standard diagnostic tool for occult tethered cord syndrome.

149. That Defendant BOLOGNESE in the video presentation entitled "Tethered Cord Syndrome" posted on Defendant TCI's website knowingly and with intent to deceive failed to advise the public that there are no scientific studies or peer reviewed medical literature in existence demonstrating that morphometrics is useful and efficacious in the diagnosis of occult tethered cord syndrome.

150. That Defendant BOLOGNESE knowingly and with intent to deceive failed to advise the public in the video presentation on Tethered Cord Syndrome posted on Defendant TCI's website, that he and Defendants, MILHORAT, REMY AND ROONPRAPUNT, and the other physicians at Defendant, TCI, rely upon Defendant NISHIKAWA'S interpretation of various radiological studies, and his morphometric calculations, in making the diagnosis of occult tethered cord syndrome, even though Defendant NISHIKAWA was not, and is not, a licensed medical doctor in the State of New York.

151. That the Defendants knowingly and with intent to deceive, failed to advise the parents of the Plaintiff, [REDACTED], that Defendant, NISHIKAWA, performed morphometric calculations on her MRI's and other radiological studies and helped formulate the diagnosis of occult tethered cord and her plan of care while in the State of New York, even though he was not a physician licensed to practice medicine in the State of New York.

152. That the Defendant physicians knowingly and with intent to deceive, failed to advise the Plaintiff's parents that the Defendant physicians relied upon Defendant, NISHIKAWA's morphometric interpretations in making the diagnosis of occult tethered cord and in formulating the Plaintiff's plan of care even though Defendant, NISHIKAWA was not a licensed physician in the State of New York.

153. That the Defendants jointly and severally recommended said surgery solely for their own financial gain, knowing full well that there was no scientific proof that this surgery would improve the Plaintiff's Chiari Malformation or the symptoms associated with Chiari Malformation or be of any benefit to the Plaintiff.

154. That as a result of the knowingly false representations made by the Defendants, the Plaintiff, [REDACTED], by and through her parents and natural guardians, was fraudulently induced into having tethered cord surgery on April 15, 2008.

155. That the Plaintiff, [REDACTED], by and through her parents and natural guardians, detrimentally relied on the fraudulent information provided by the Defendants as set forth in the paragraphs above, and agreed to have tethered cord surgery, which was performed by the Defendants on April 15, 2008.

156. As a result of having surgery by the Defendants, the Plaintiff was caused to suffer serious physical, emotional and financial injuries.

157. In addition to suffering physical and emotional injuries, the Plaintiff has been caused to suffer financially as a result of having the unnecessary surgery recommended by the Defendants, including but not limited to, having to expend monies for medical expenses not covered by insurance, such as the initial consultation fee charged by Defendants.

158. The Plaintiff was covered by medical insurance at the time of her treatment by the

Defendants.

159. The Defendants charged the Plaintiff is excess of \$60,000.00 for the unnecessary surgery they performed, and Plaintiff's health insurance carrier paid a portion of those charges.

160. The Plaintiff's health insurance carrier under an equitable or contractual right of subrogation or under ERISA will seek reimbursement from the Plaintiff if she recovers monetary damages from this case.

161. In the event that the Plaintiff recovers a monetary award from this case, she will be required to reimburse her health insurance carrier for the payments it has made to the Defendants and to her subsequent treating physicians who have treated her damages sustained in connection with the Defendants' malpractice.

162. As a result of the fraud perpetrated by the Defendants upon the Plaintiff, [REDACTED], she is entitled to punitive damages.

166. That the Defendants, MILHORAT, BOLOGENSE, REMY, ROONPRAPUNT, TCI, HARVEY CUSHING and NORTH SHORE – LIJ performed human experimentation upon the Plaintiff, [REDACTED], on APRIL 15, 2008, without her lawful consent.

167. That the Defendants, MILHORAT, BOLOGNESE, REMY, ROONPRAPUNT, TCI, HARVEY CUSHING and NORTH SHORE – LIJ, in unlawfully touching the Plaintiff, did so maliciously and with the desire to cause injury to the Plaintiff.
